Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submissions filed on 12/18/2007 and 12/10/2007 have been entered.

Allowable Subject Matter

Claims 17, 19-22 and 24-30 are allowed.

The following is an examiner's statement of reasons for allowance: all of the instant claims are allowable over the cited prior art at least because none of the cited prior art shows or suggests the use of a movable rod or bar structured in the manner required by the instant claims, where the rod allows for both stepwise introduction into the nozzle area, allowing for gas injection even while the rod is inserted into the nozzle, and the leaktight seal between the upstream end of the rod and the tubular housing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
